    polymers 89
    proteins 85
Cyclodextrin – *beta*
  aggregation behaviour 25
  complexes with
    adamantanol derivatives 157, 161
    alkylaminomethyl naphthols 129
    azoreactive dyes 203
    benzoic acids 81
    bicyclononanes 125
    bicyclooctanes 73
    dextromethorphan 267
    diclofenac 177
    gliclazide 137
    polymers 89
    polyunsaturated fatty acids 217
    polyunsaturated fatty acid triglycerides 213
    pyridoxine 113
    triflumizole 237
  gels of 209
  hydration processes of 21
  hydrophobically modified 25
  oligosaccharide branched 69
  polymers
    complexes with
      disinfecting drugs 185
      pyrene 77
  removal of PAHs and pesticides using 229
  removal of phenols using 225
  suface modification of fibres by 197
  trehalose capping of 39
  urea bridged dimers of 53
  water soluble polymers of 61
Cyclodextrin – *epsilon*
  crystal structure 17
Cyclodextrin – *ethylated beta*
  complex with salbutamol 109
Cyclodextrin – *gamma*
  complexes with
    alkylaminomethyl naphthols 129
    azoreactive dyes 203
    bicyclooctanes 73
    C_{60} 97, 103
    polymers 89
    polyunsaturated fatty acids 217
    polyunsaturated fatty acid triglycerides 213
    pyridoxine 113
  fluorescein modified 283
  oligosaccharide branched 69
Cyclodextrin – *hydroxypropyl beta*
  complexes with

albendazole 149
alkylaminomethyl naphthols 129
chloramphenicol palmitate 165
diclofenac 177
proteins 85
gels of 209
removal of PAHs and pesticides using 229
removal of phenols using 225
Cyclodextrin – *methylated beta*
complexes with
alkylaminomethyl naphthols 129
azoreactive dyes 203
benzoic acids 81
naphthalene 121
selegiline 253
tolbutamide 313
removal of phenols using 225
soil bioremediation using 223
Cyclodextrin – *monochlorotriazinyl beta* 191
Cyclodextrin – *triacetyl beta*
complex with flufenamic acid 181
Cyclooligosaccharides 47
lipophilicity patterns of 3

Insulin
cyclodextrin induced dissociation of 169

Lipophilicity patterns 3

Maltoheptaose
complex with naproxen 327
Microcalorimetry 81, 85, 169
MM calculations 103, 177, 237
Molecular necklaces 93

Photodynamic tumor therapy
use of cyclodextrin dimers in 29, 35
Plutonium extraction 257

Raman spectroscopy 21

Self organisation 93
Soil bioremediation 233

Zeolite ZSM5 303

Subject Index Volume 26

Bentonitic clays 98

Cadmium cyanide
  clathrate with dimethyl carbonate 153
Cadmium nitrate-pyridine system
  clathrate and complex formation in 269
Cation complexation 21, 27, 67, 331
Coordination isomers 197
Crown ethers
  azo 47
  azoxy 47
  benzo 67, 197, 253
  chiral 321
  complexes with Li^+ 243
  coumestan 39
  diazadioxa 27
  diazatetraoxa 21
  furanotribenzo 197
  glucuronic acid containing 321
  naphtho 253
Cyanocuprate complexes 119
Cyclodextrin – *alpha*
  complex with
    bicyclo[3,3,1]nonanes 209
    tyrosine and tyrosine residues 185
  effect on viologen dimerization 219
  solubility measurements 133
Cyclodextrin – *beta*
  complex with
    aromatic acids 303
    bicyclo[3,3,1]nonanes 209
    naphthalene derivatives 175
    tyrosine and tyrosine residues 185
  effect on viologen dimerization 219
  solubility measurements 133, 303
Cyclodextrin – *gamma*
  effect on viologen dimerization 219
  solubility measurements 133
Cyclodextrin – *hydroxypropyl beta*
  complex with biliar acids 233
Cyclodextrin – *permethylated beta*
  chiral recognition of 295
  enantioselective separations using 295
Cyclodextrin – *permethylated gamma*
  chiral recognition of 295
  enantioselective separations using 295
Cyclodextrin – *trifluoroacetylated beta*
  chiral recognition of 295
  enantioselective separations using 295
Cyclodextrin – *trifluoroacetylated gamma*
  chiral recognition of 295
  enantioselective separations using 295
Cyclodextrin – *trimethyl beta*
  complex with
    ibuprofen 281

Dicyanoargentate host 161

Enthalpy-entropy compensation 175

Fluorescence spectroscopy 67, 185

Guest disorder 1

Infrared (IR) spectroscopy 103, 111, 127
Intercalation by vanadyl phosphate 311
Ion-dipole interactions 61
Ion selective electrodes 253
Ion transfer polarography 331

Lariat cyclicdiamides 21

Mineralomimetic chemistry 153
Monolayers 47
